

Form RS4 Non-standard Installation Approval – Piped Takes

Post to:
Otago Regional Council
70 Stafford Street
Private Bag 1954
Dunedin 9054
Attn: Environmental Services

or Email to:
watermetering@orc.govt.nz

Phone: 0800 474 082
www.orc.govt.nz

If a water meter installation cannot comply with Otago Regional Council standards and the Resource Management (Measurement and Reporting of Water Takes) Regulations 2010, then a request for non-standard installation needs to be submitted.

This form needs to be completed and submitted to the ORC Environmental Data Unit. You must also complete the water meter / datalogger installation and commissioning certificate which includes fields for datalogger details and accuracy details.

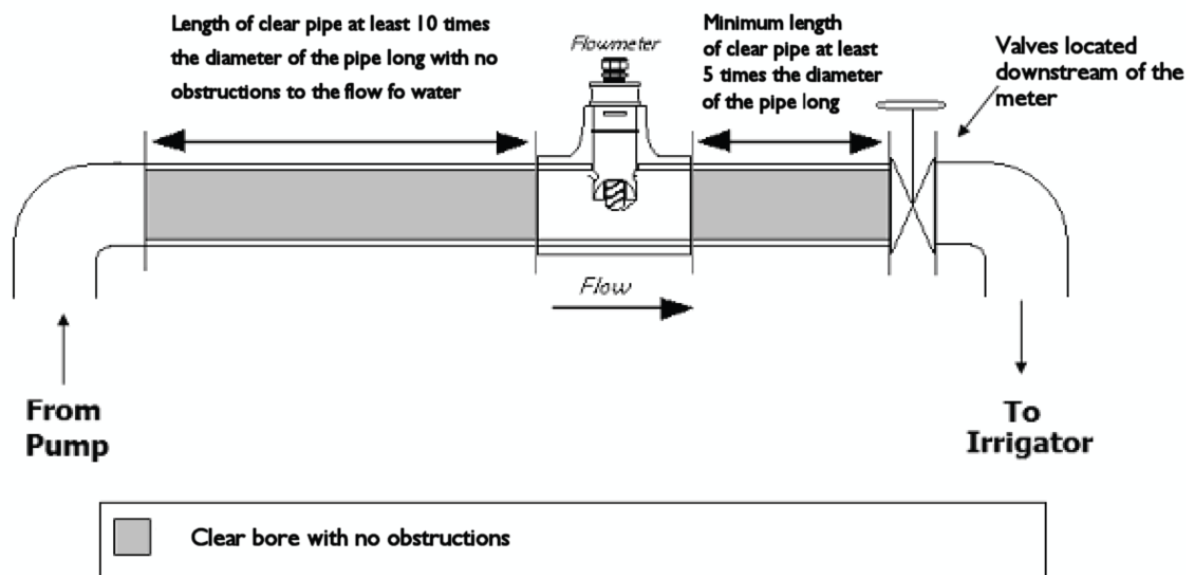

Consent number:		
Well number(s):		
Name of consent holder:		
Address of consent holder:		
GPS location of meter (NZTM format):	Easting:	Northing:
Location of take:		
Type:	Pre-existing	Proposed

Water meter details

Make:		Meter size:	mm diameter
Model:		Pulse output?	<input type="radio"/> Yes <input type="radio"/> No

Reason(s) for non-standard installation:

Figure 1: Installation diagram - Please mark any disturbances upstream of the water meter e.g. pipe size reduction, gate valves, pipe bends.

Required information

Please attach the following information to your application:

Pre-existing

A completed Verification form proving that the meter is operating within the required accuracy within the nonstandard pipe run

Proposed

A letter from the meter manufacturer/supplier confirming that the meter will operate within the required accuracy within the non-standard pipe run.

Include with your selected option:

A photograph(s) of the current installation.

A location map showing where a 15 diameters length of straight unobstructed accessible pipe run is available to verify the system flow with a clamp-on water meter. The map should show the approximate location of this section of pipe in proximity to the installed water meter.

Approximate date for installation (i.e. when by?):
